6/29/05 R04-04-003 Order Instituting Rulemaking to promote policy and program coordination and integration in electric utility resource planning.

Summary: On June 24, 2005, Katie Kaplan, Manager of State Policy Affairs, Independent Energy Producers Association (IEPA), met with Stephen St. Marie, advisor to Cmmr. Bohn, in San Francisco. Also present were Aaron Johnson, advisor to Cmmr. Grueneich, Maryam Ebke, Acting Director of the Division of Strategic Planning, Philippe Auclair, Advisor, Policy and Planning, who joined in by the telephone, Brian Cragg, attorney for IEPA, and Brian Theaker of Williams, a member of IEPA. Cragg noted that in the context of the Resource Adequacy Requirement, the emphasis on capacity of the 'top-down' approach would help ensure that power was available to meet California's needs at times when capacity is tight, while the 'bottom-up' approach would be most vulnerable when capacity was in short supply. Kaplan added that in other areas of the country, firm liquidated damages contracts had in fact been liquidated at times of high demand. Theaker noted that the payment of liquidated damages, rather than the actual delivery of energy, was an express contractual remedy under firm liquidated damages contracts, not a breach of these contracts. Theaker and Kaplan stated that the emphasis of the Resource Adequacy Requirement should be on the recovery of the fixed costs of generation resources, and California electricity markets as currently structured would not produce prices that would cover the costs of investing in new generation.

Summary: LATE FILED. On June 15, 2005, Natalie Walsh, Deputy Director of the Office of Ratepayer Advocates (ORA), met with Stephen St. Marie, advisor to Cmmr. Bohn, in San Francisco. Also present were Steve Ross, Analyst, ORA, Colin Cushnie, Director, Regulatory Affairs, Southern California Edison Company, and Brian Cherry, Director, Regulatory Relations, Pacific Gas and Electric Company. ORA noted that the ALJ's proposed decision allocates a fair share of the burden of the Department of Water Resources contracts to each of the investor-owned utilities whereas the alternate decision results in arbitrary allocation of costs that is both unjustified and inequitable.
